Earth Day Vocabulary & Pocket

Ecology	science concerned with improving living conditions
fauna	animals of a given region
endangered	being in a state peril, risk or harm
defoliate	to cause widespread loss of leaves
deplete	to empty or exhaust
renewable	able to be sustained or renewed indefinitely
erode	to eat into or away; destroy
symbiosis	mutual living together (2 different organisms)
botanical	of or belonging to a plant species
revitalize	to give new vitality to
flourish	to grow luxuriantly
sustainable	able to be maintained
ozone	form of oxygen
apathetic	lacking concern in things
Recycle	process an item such as glass or cans, in order to regain materials for human use
Conservation	The act of preserving, guarding, or protecting
Environment	The area in which something exists or lives

Book Mark—Watch for these words as you read! Run a ribbon through the loop at the top to add a bit of flair. or just leave it.

Ecology

fauna

endangered

defoliate

deplete

renewable

ozone

apathetic

Recycle

Conservation

Environment

animals of a given region

science concerned with
improving living conditions

to cause widespread loss of
leaves

being in a state peril, risk or
harm

able to be sustained or
renewed indefinitely

to empty or exhaust

mutual living together
(2 different organisms)

to eat into or away; destroy

to give new vitality to

of or belonging to a plant
species

able to be maintained

to grow luxuriantly

lacking concern in things

form of oxygen

The act of preserving,
guarding, or protecting

process an item such as glass
or cans, in order to regain
materials for human use

The area in which something
exists or lives

Cut out in one piece. Cut on Dashed lines and fold on solid ones. Then write down information about each of the individuals and how they connect to earth day. Be sure to add in any nicknames that they may have been given.

 <p>The Founders</p> <p>Who they are and how they're connected!</p>			
 <p>Denis Hayes</p>	 <p>Muriel Nazzari</p>	 <p>Jay Byrnes</p>	 <p>Rachel Carson</p>

My Planet: Earth

Color the planet blue and green. Then write earth 2 times! Label goes on front.

Earth

Two vertical lines for writing practice.

Cut out green area. Use a brad to connect the two circles. Spin the top circle to find more “power makers”! (PS: The funny bottle between the water picture and the Oil rig is vegetable oil.) The third wheel is if you would like to have your child draw their own pictures to show the different power providers.

8

E I G H T _____

INSTRUCTIONS: Cut each strip out—do not cut solid lines in the middle. So 1 and 2 will stay together, 3 and 4, etc. Use the Cover below as a title. Layer and staple all pages together (at the top) to add to the lap book. This will help teach not only numbers but also Left to Right reading!!

1, 2, 3, RECYCLE

9

NINE _____

10

TEN _____

COVER:

Cut on dashed lines. Fold on solid lines. Glue into cover.

Pick the picture for each child. Then glue on to the “bent up Strips” to make it pop. Glue into lap book.

Recycle the Trash!

Pocket Facts

An Easy Way to Practice Those Pesky Facts That Is FUN!!

Your child should choose two (2) facts and only two facts to carry in his/her pocket everyday for a week. The facts your child chooses should be ones he/she doesn't already know off the top of her/his head. Place the ones already memorized on a ring for future reference. Then parents should hide ten examples using those same facts around the house (i.e. in the refrigerator, the cereal box, under a pillow, in the sock drawer) and make a game out of finding the facts. Every time your child finds a flash card, brings it to you, and answers the fact correctly s/he gets a point. Then, Mom and Dad can hide the fact again. The goal is to try to get at least 20 points per day for a week. At the end of the week, the child should be confident with each fact and able to choose the next two facts for the following week until all facts are memorized. Pocket facts can be done for addition/subtraction and multiplication/division facts at each grade level. Try it with your child at home and see how fast your child learns those pesky facts!

Tally Sheet		Facts Memorized
Monday	                   	
Tuesday	                   	
Wednesday	                   	
Thursday	                   	
Friday	                   	
Saturday	                   	
Sunday	                   	

Addition

Subtraction

Multiplication

Division

Have your child keep the pocket fact in their own pockets until they have them down (only two facts at a time), then place them in the pocket on their lapbook. I suggest adding a ring or yarn through the corner (hole punch on the corner circle) to keep the cards together while they are in the pocket.
